

Waste Development Framework Preferred Options Feedback Form

Leicestershire County Council and Leicester City Council have prepared the Preferred Options version of their **Waste Development Framework** (WDF). The framework consists of: the core strategy and development control document; the site allocations document and the sustainability appraisal of both documents and their associated appendices.

The Councils are now inviting people to comment on the documents and this form allows you to make comments on any or all of the documents which form the framework. Comments on the sustainability appraisal reports can be made in the bottom box overleaf. You may also submit your comments via our website (www.leics.gov.uk), email your comments to planningcontrol@leics.gov.uk or write to the address on the pre-paid envelope supplied.

YOUR CONTACT DETAILS

Please enter your contact details in the box below:

Please indicate whether you are filling in this form on your own behalf or as an agent.

Own Behalf

Agent

If you are an agent please indicate who you represent.

Should you require more space than that provided then please either photocopy this form, go to our website and fill in a form online or attach a sheet to this form.

Please indicate to which document your comments pertain using the numbering system for the documents below.

1. WDF Core Strategy and Development Control
2. WDF Site Allocations

Document to which your comments relate Policy/Site Map/Paragraph (delete as appropriate) Number

Comments

Spatial Vision: The vision that any of the concepts of waste management could "help improve quality of life" is a fascinating concept. The driver of the vision should reflect the waste hierarchy and promote the sustainable use of land and resources.

Document to which your comments relate Policy/Site Map/Paragraph (delete as appropriate) Number

Comments

Objectives: Number 7: Suggest rewording: To provide for a distribution of WMF in the framework area at locations which optimize the use of previously developed land, meet the needs of communities and minimise the distances waste is transported.

Document to which your comments relate Policy/Site Map/Paragraph (delete as appropriate) Number

Comments

The concept of moving waste up the hierarchy and making communities more responsible for their own waste seems to conflict with the notion of compensating communities for having WMFs.

Comments on the Sustainability Appraisal (SA) Reports

Is any significant information missing or misrepresented?

Are judgements made in developing the SA Framework correct?

Do you agree with the results of the assessment of effects and any mitigation and monitoring measures proposed? If not do you have any suggestions?

Please write any comments in the box below.
