Dear Mr Wright

LEICESTERSHIRE AND LEICESTER WASTE DEVELOPMENT FRAMEWORK, WASTE SPATIAL STRATEGY FURTHER CONSULTATION

Thank you for the consultation in respect of the above. The only additional comment we have to make reflects comments we made on the initial preferred options sustainability appraisal. Paragraph 2.6 of the further consultation relates to other modes of transportation. In relation to the last sentence we suggest that it is more appropriate to say that 'the scope for transporting freight on waterways may be limited due to the size of the navigation and the navigation routes. However, where it is appropriate to move freight by water this option should not be disregarded'.

Yours sincerely,

Helen Edwards
