

CHARNWOOD FOREST REGIONAL PARK DRAFT VISION STATEMENT QUESTIONS

1. Vision

Do you agree that the vision set out in the draft vision statement (1.1) is appropriate for the Charnwood Forest Regional Park?

2. Objectives

The objectives are :

- To retain and enhance landscape character, including biodiversity, geodiversity and cultural heritage features.
- To retain and enhance settlement character.
- To promote sustainable leisure and tourism.

Do you agree that the objectives set out in the draft vision statement (3.2) are appropriate for the Charnwood Forest Regional Park?

3. How we will achieve the vision

The draft vision statement sets out how the vision will be achieved through positive spatial planning and land management under eight bullet points (5.1). Do you have any comments on these?

4. Boundary

The landscape and settlement character study carried out by TEP environmental consultants took into consideration previous stakeholder consultation in reaching its recommendation for the working boundary for the Charnwood Forest Regional Park. This co-incides with the amended Charnwood Forest county level landscape character area and is shown on the plan (Figure 019) attached to the draft vision statement.

Do you agree that this should be the working boundary for the Regional Park?

5. General

Do you have any other comments to make on the draft vision statement?
