

# How would you like your face smashed in?

Your weight  
63.5kg approx.

Crash at  
30mph

Your weight  
at the point of  
impact  
1905kg approx.

In a crash at 30mph, if you are standing up you will be thrown forward with the force of at least **30** times your body weight!

## Stay sitting down on the bus!

If you have witnessed any unacceptable behaviour on the school bus, we want you to tell us about it so we can take action. No one will know it's you who has reported the incident.

Visit [www.leics.gov.uk/safertravel](http://www.leics.gov.uk/safertravel)

**If it's not reported, it won't get sorted!**
