

What do we do at LENAP?

LENAP opens at 9.00 in the morning.

We have half an hour of games so that the children can get to know each other and practise speaking English.

After that we start lessons for the day. Sometimes all the children work together. Sometimes the children work in small groups.

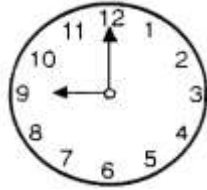

We give children work that is right for them.

Sometimes we read a book together or practise speaking and writing. Sometimes the children learn English for Maths or Science.

There is a teacher and two assistants, so that the children get a lot of attention.

In the middle of the morning we have a break. The children play outside. They can play with the English speaking children from the school.

After break, we have some more lessons.

We open at 9.00am

Reading and Writing

Listening and speaking

Learn English on the computer

At 12.00 we have lunch at school. Some children buy a hot dinner from the kitchen. Other children bring food from home.

After lunch the children play outside again.

In the afternoon, we have more lessons. Sometimes we make things or paint pictures.

Sometimes we go to the café, the park, the market or to the museum.

We also go to the library. Children can choose any book they want.

At 3.00 LENAP closes. You should come to meet your child at this time.

Most children take a reading book home. You can look at it with your child and talk about it in English or in your own language.

Some children have some writing for homework. You can help them with this if you like.

We have lunch at 12.00pm

English for Arts and Crafts

We close at 3.00pm

English for Maths
