

Booklist Dragonflies

- The best dragonfly field guide currently available is 'The Field Guide to Dragonflies and Damselflies of Great Britain and Ireland' by Brooks and Lewington, published by British Wildlife Publishing, ISBN 0-953-13990-5.
- Also recommended is the 'Atlas of the dragonflies of Britain and Ireland' by Merritt, Moore and Eversham, published by HMSO, ISBN 0-11-701561-X.
- 'Leicestershire Dragonflies' by Grover and Ikin, published by Leicestershire County Council, ISBN 0850223598, is a useful introduction to dragonflies in Leicestershire and Rutland, though it is now twelve years old and subsequently a little dated.
