Dear Mr Wojtulewicz,

RE: Brooksby Landfill Proposal

I have been asked to lodge an objection to the proposal for a Landfill Site at Brooksby by Frisby on the Wreake Parish Council.

In particular we would site the following reasons;

- Increased transport along the A607 which already has a poor accident record. It was estimated that there would be 35 to 40 additional HGV's per working day both to and from the site, in addition to the extra traffic carrying sand and gravel.
- Extending the time scale of the original proposal
- The close proximity of the landfill site to Rearsby Brook potentially leading to pollution
- Loss of scenic landscape, agricultural land and wildlife habitat compared with original plans for restoration after sand and gravel extraction
- Impact of development in a flood plain and altering the natural water courses on land drainage
- The potential leakage of dangerous gases from the site

Yours sincerely,

Sue Booth  
Parish Clerk
