

## Census 2001 Parish Profile:

**District: Harborough**

**Parish: Great Easton**

Detailed Census results cannot be published for the smallest parishes as this might endanger confidentiality. The range of Census results that are available depend on the parish population on Census day - 29th April 2001.

Simple 'Profiles' containing around 100 variables have been released for all Parishes in Leicestershire with at least 50 residents and 20 households and these are presented in this profile. The themes covered are: People; Households; Work & Qualifications and Accommodation & Tenure. These profiles have not been released for higher geographies such as Wards or Districts so there is no comparison with other areas. Please note that due to rounding in the data adding individual counts may not equal the relevant total.

If the information you are looking for is not in this profile then look at the more detailed Parish Key Statistics tables which provide around 500 variables for all Parishes with at least 100 residents and 40 households. These are available from the contact details below.

The main Census data is freely available and the Census Offices have granted unrestricted use of it, but a licence is required for its reuse and publication. The Census output remains Crown Copyright. Any organisation wishing to publish or re-use the data in the products supplied by Leicestershire County Council should first obtain permission from Leicestershire County Council.
