29 November 2007

Dear Sirs

**Subject – Consultation on Leicestershire Minerals Development Framework and Leicestershire and Leicester Waste Development Framework
*Further Consultation on Preferred Options (Core Strategy)***

I refer to your Core Strategy Consultation and having studied the proposals, would comment that I would support the proposals to use existing waste sites for recycling centres and the extension of existing extraction sites rather than the creation of new.

4.4

4.14

My reasoning would be that the existing infrastructure is already in place and whilst there will be an extension of disturbance to local residents, no additional disturbance would be created elsewhere.

Yours sincerely

R A Hill
Director of Estates Services
