Comments on the Sustainability Appraisal (SA) Reports

Is any significant information missing or misrepresented?

Are judgements made in developing the SA Framework correct?

Do you agree with the results of the assessment of effects and any mitigation and monitoring measures proposed? If not do you have any suggestions?

*Comments Relate to both the WDF and MDF.
Please write any comments in the box below.*

*Site proposed is too large - out of proportion with surroundings. Restrict extraction to small parcels of land.
V. concerned about safety on the lanes surrounding the proposed site due to volume of 'quarry lorries' - it is bad with the current traffic entering and leaving the 'Lafarge site'. It could be more dangerous if the extraction is on the opposite side of Warren Lane to the 'processing plant'. see other sheet*

V. concerned

re Lockington Quarry site B.

Please write any comments in the box below.

*V. concerned about the closing/disappearing of existing footpaths when the extraction starts (e.g. Mudshires Way).
Need to minimise the amount of 'dust' generated by the overall process.*
