

Acceptable use Policy

The use of **internet**, email
and other mobile / digital
technologies within school

Enjoy using the Internet, but we want to make sure that you are safe online by:

- ! giving you computer equipment that works properly;
- ! helping you to go on websites that are safe; and
- ! teaching you how to surf the web in a way that helps you to stay safe.

The Internet is for classwork not for playing games.

If you have a mobile phone and you are allowed to have it in school, remember it should only be used for emergencies and not in a way that might make someone sad.

Everyone in the school should be allowed to use the Internet and email and you can make this happen by:

- ! always using kind words when writing an email;
- ! by only using the Internet in school to do your class / homework and not using it to play games, download music or speak to your friends online on a special website;
- ! looking after the ICT equipment ...other children use it too!

How to stay **SAFE**

If you, by mistake, go on a website that you know is unsafe, let your teacher know straight away. If you receive an email from someone that you find upsetting, let your teacher know straight away.

If you see or receive anything that makes you feel worried, tell an adult you trust. You can talk to your mum, dad or teacher.
