

**LEICESTERSHIRE & LEICESTER
WASTE DEVELOPMENT FRAMEWORK**

**CORE STRATEGY &
DEVELOPMENT CONTROL POLICIES**

**HEARING AGENDA
SPATIAL VISION AND OBJECTIVES**

Whether the spatial vision is sufficiently aligned with national and regional policy

1. Should the spatial vision refer to energy recovery?
2. Should the spatial vision refer to making provision equal to the amount of waste generated and requiring management within Leicestershire and Leicester?

Whether the vision is expanded into the key specific objectives that need to be addressed

3. What are the policies that flow from promoting waste minimisation initiatives and the use of waste as a resource (such as aggregate)? Are the related objectives directed at other plans or programmes? [GOEM]
4. Should there be reference to facilitating the *timely* delivery of waste management facilities such as by the key dates of 2009/10, 2014/15 and 2019/20?
5. Should there be reference to encouraging facilities that would actually lead to a reduction in waste?
6. Should there be reference to securing a centralised pattern of large facilities?
7. Should there be reference to meeting the needs of different sized communities?
8. How meaningful is the objective of encouraging transportation of waste other than by road?
9. Should there be reference to avoiding effects on the River Mease SAC?
10. Should there be reference to promoting increased woodland cover in the area of the National Forest as well as facilitating biodiversity, recreation and amenity provision? [CBC]
11. Should the protection and enhancement of Charnwood Forest be a specific objective? [CBC]
12. Should the objectives refer to protecting people (or safeguarding their living conditions) rather than communities?
13. Should there be objectives relating to minimisation of waste in the construction of and operation of new development; encouraging on-site management facilities; restoration; and aftercare?
